

EDUCATION LEADERSHIP CONFERENCE

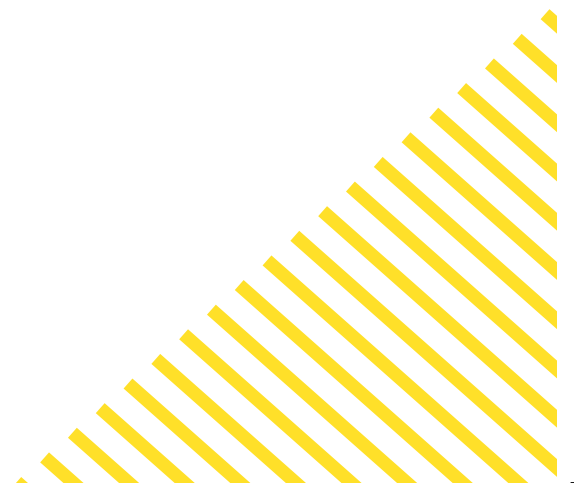

2019

NEVER STANDING STILL: LEADING THROUGH UNCERTAINTY

YALE SCHOOL OF MANAGEMENT

NEVER STANDING STILL: LEADING THROUGH UNCERTAINTY

Dear Educators & Leaders of Change,

Welcome to Yale School of Management's 13th annual student-led Education Leadership Conference. We are thrilled you can join us for the 2019 ELC, Never Standing Still: Leading Through Uncertainty.

Since our first gathering in 2007, the Yale School of Management ELC's mission has been to create a constructive dialogue about how leadership and management skills applied to the education sector can constructively address complex challenges in public education. Through panels, networking, and discussion our speakers, attendees, and partners have created a strong community; we have watched that community grow, and each year new and continued partnerships initiate innovation and sustainable reform toward increased student success and system-wide progress.

For our 13th anniversary, we are excited to host a series of debates, panels, and speakers that will challenge our thinking about the status quo and facilitate solutions-based discussion about how we can continue to move forward in uncertain times. We recognize the necessity to concurrently strive for innovation while also providing stability in our schools. We hope this year's conference will facilitate critical reflection about our progress and inspire all those who are "Leading through Uncertainty".

We are excited to share the knowledge of our panelists, keynote speakers, community advocates, families, and exhibitors. More importantly, we hope that you will share your experiences and connect with fellow leaders in education. Change cannot happen alone, so we are excited you have chosen to join us to explore how we can harness the power of individuals and organizations at every level to affect positive change in education.

Sincerely,

The Yale ELC Team
